PROFESSIONAL SUMMARY

Full-Stack Developer with a frontend specialization and 2+ years of experience building robust and maintainable logistics and delivery systems. Proficient in React, TypeScript, Node.js, and PostgreSQL, with strong experience in REST API design, authentication systems, and end-to-end frontend-backend integration.

PROFESSIONAL EXPERIENCE

Cargoexpress Venezuela

Full-Stack Developer

Louisville, KY (Remote - Perú)

Feb. 2024 – Present

- Developed and maintained a logistics and distribution system supporting international shipments across three countries, optimizing cargo flow and improving tracking efficiency.
- Led the maintenance and optimization of the waybill module, implementing a robust status management system and automated notifications to enhance the end-user experience.
- Designed and implemented scalable RESTful APIs using Node.js and Express, integrating them with dynamic frontend interfaces built with React and TypeScript for efficient data management.
- Designed and administered a PostgreSQL relational database, ensuring data integrity and enabling fast, reliable package tracking queries.

LANGUAGES

English: Intermediate (B1–B2) – Strong technical reading and documentation comprehension.

Spanish: Native Language

TECHNICAL SKILLS

Frontend

React (2 years), TypeScript (2 years), Next.js (1 year), Redux, Context API, TanStack Query, React Hooks, HTML5, CSS3 (Flexbox, Grid, Responsive Design), Tailwind CSS, Bootstrap, CSS Modules.

Experience in:

- Component-Based Architecture
- Responsive UI Design
- Form Validation
- API Integration
- Authentication Flows

Backend Development

Node.js (2 years), Express.js (2 years), RESTful API Development, JWT Authentication, Middleware Architecture, Role-Based Access Control (RBAC), Environment Configuration.

Experience in:

Full frontend-backend integration, backend deployment, and API validation.

Databases & ORM

PostgreSQL (2 years), MongoDB (2 years), SQL (Joins, Relationships, Normalization, Query Optimization), Prisma ORM (Schema Modeling, Migrations, Relations, CRUD Operations), Mongoose (Populate, Middleware).

Testing

Jest (Unit & Integration Testing, Mocking), Supertest (API Endpoint Testing), API Validation and Response Testing.

API Documentation

Swagger (OpenAPI Specification).

DevOps & Deployment

Git, GitHub, Vercel, Render, Netlify.

EDUCATION

Bachelor's Degree in Food Engineering

Dec. 2018

National University of San Agustín of Arequipa (UNSA)
Faculty of Engineering
Santa Catalina 117, Arequipa 04000, Peru

CERTIFICATIONS

Advanced React & TypeScript Certification (58 hours)

Feb. 2026

Udemy
Instructor: Juan Pablo De la Torre

Certification in Fundamentals of AI Development

Mar. 2026

BIG School
Instructor: Brais Moure
